

Intuit QuickBooks 2010 for Mac

Managing your business finances can be hard. QuickBooks for Mac makes it easy.

Create invoices, track expenses, manage payroll and generate reports all in one place. The powerful new features in QuickBooks 2010 for Mac help you run your business more efficiently. Customizable reporting tools provide insight into every dollar going in and out. And valuable add-on services help you make sure you're getting the most out of QuickBooks.

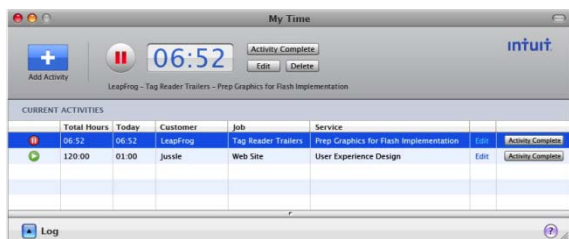

There are over 40 improvements to help you save time, make money and get paid. Here are just a few.

Customize your Company Snapshot

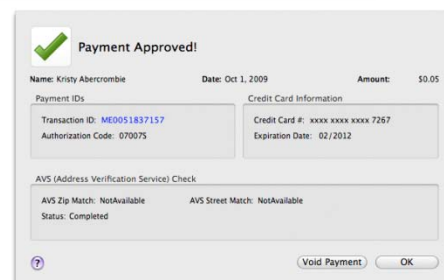

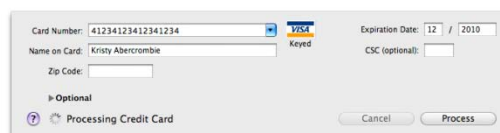

Choose from a variety of charts and graphs to personalize your Company Snapshot and see what's important to you. Simply drag and drop widgets to pull together your most essential at-a-glance business reports. See business data *your way*.

Track Billable Hours More Easily¹

Reduce data entry errors and save time with "My Time" time-tracking software, included free with QuickBooks 2010 for Mac. Track billable time, instantly generate timesheets, and easily import timesheet data directly into QuickBooks 2010 for Mac.

Get Integrated Credit Card Processing²

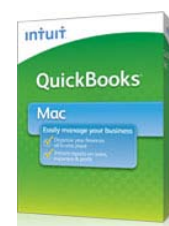

Add on Intuit Merchant Service for QuickBooks for Mac and process credit and debit card transactions directly through QuickBooks. There's no additional software to purchase, phone line to add or terminal to buy. Transaction data is automatically recorded in QuickBooks saving you time.

System Requirements

- Mac computer with Intel processor
- Mac OS X v10.5.7, 10.6, or later
- 512 MB RAM;
- 160 MB of disk space

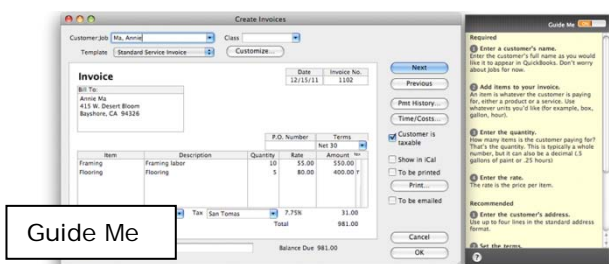

Price:
- \$199.95

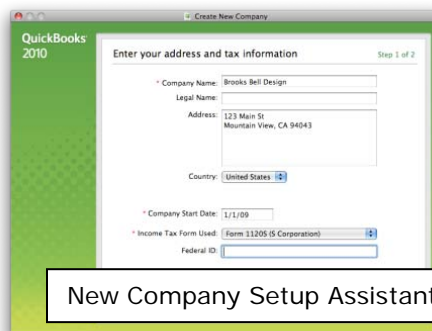

Intuit QuickBooks 2010 for Mac

Other Major Features

- **Guide Me and New Company Setup Assistant.** Create a new company file in just two screens with the New Company Setup Assistant. Use Guide Me for help with everyday tasks and get up and running fast.

New Company Setup Assistant

Additional Improvements

- **Report Center.** Find the right report fast with Suggested, Favorite and Recent reports.
- **Date picker.** Click in any date field & select the right date from the pop-up calendar.
- **Printing.** Change print settings and preview your job with a familiar, Mac-like interface.
- **Preferences.** The Preferences window now has a familiar Mac OS X look and feel. Easily find the setting you want with the built-in search box.
- **Statements.** Save time by emailing statements and get more control over which customers receive statements.
- **Transfer funds.** Record a transfer of funds (offline) using a simple interface.
- **Pay Bills.** Easily change check numbers as you pay bills, making it easier to track payments by electronic funds transfer (EFT) or other methods.
- **Batch email.** Set a custom message for forms emailed in batch.
- **Duplicate forms.** Save time on repetitive data entry by duplicating an existing estimate, invoice, purchase order, credit memo, sales receipt, or check.
- **Contact Sync.** Redesigned and more reliable.
- **Online banking—matching transfers.** Properly match transfers between two accounts.
- **Online banking—download all.** One click to download the latest transactions from all Direct Connect-enabled accounts.

Date Picker

Preferences

1 My Time can be installed on one machine and will track time for a single user. It doesn't need to be installed on the same machine as QuickBooks for Mac. Data can be imported into QuickBooks 2010 for Mac or higher. Terms, conditions, pricing, features, service and support are subject to change without notice.
 2 Requires Intuit Merchant Service for QuickBooks for Mac (sold separately); subject to application approval and debit card transactions are processed as Signature Debit which does not require entering a PIN code. See <http://payments.intuit.com/legal.jsp> for details.
