Account

Account Type: Accounts receivable (A/R)

*Detail Type: Accounts Receivable (A/R)

*Name: Accounts Receivable (A/R)

Number: []

Description: []

Is sub-account

Enter parent account: []

Default Tax Code: Enter Text []

Accounts receivable (also called A/R, Debtors, or Trade and other receivables) tracks money that customers owe you for products or services, and payments customers make.

QuickBooks Online Plus automatically creates one Accounts receivable account for you. Most businesses need only one.

Each customer has a register, which functions like an Accounts receivable account for each customer.
