Hi Beth,

This is the message that I receive from QB when doing payroll from time to time:

**Notice: Annual Wages Limit Reached**

You may notice that the amount of one or more taxes on this paycheck is either smaller than usual or 0.00. This is because "Roman" has reached the annual wage limits for these taxes:

- NY Paid Family Leave (usage limit: \$1,401.17)

*No!*  
*This is the average weekly wage limit, not annual!*

More information:

The amount for these taxes on this employee's future paychecks this year will be 0.00 in most cases.
