Immanuel EV Lutheran Church & School

Your Intuit Account is reset

Hi,

You've successfully reset the Intuit Account for **Immanuel EV Lutheran Church & School**. This company file isn't linked to any Intuit Account now. For uninterrupted access to QuickBooks in future, we recommend you to link this company file with an Intuit Account. To link your company file with an Intuit Account, sign in to QuickBooks as admin and go to **Company > My Company** and select **Sign in**.

What is an Intuit account and why do you need to keep it active?

It's the account you use to access Intuit products. An Intuit account ensures the following:

- Access to added features and benefits of payroll, payments, timesheets, and more.
- An extra layer of security and protection.
- Provision to modify your information through a single account (same user ID and password) for every Intuit product you choose to use.

For more information, refer to our community articles
