Phone

[REDACTED] [Change](#)

Verify your phone number. This'll help keep your account safe and secure. We'll use your preferred method to help you sign in if you lose your password.

How should we send your codes:

- Text message
- Voice message

Continue

By selecting Continue you consent to get a text message or voice call confirming your contact info.

[Cancel](#)

2-step verification

Each time you sign in, we'll ask you to enter a code using your device in addition to your password.

Why use 2-step verification?

If your password ends up in the wrong hands, it won't be enough to access your account.

Verification methods

Phone number

[Set up](#)

You want to get your code by text message or voice call.

Authenticator app

Generate a code using an app like Google Authenticator or Authy. To use, set up your phone number first.
