

Error

**Problem:**

You are trying to open a QuickBooks file. Only QuickBooks company files can be opened this way.

**Solution:**

1. Determine the type of file you are opening by right-clicking the file and choosing Properties. The file type is listed under 'Type of file'.
2. Refer to QuickBooks Help for details about how to open a file of that type.

OK

the

review. The entire file failed. When I clicked on
