Assembly Item: AAC Block G2/250/150T/G

Production

Warning

Problem
QuickBooks does not have enough components on hand to build 86 of this assembly.

Solution
You can either reduce the number you wish to build, see a 'Shortage Report' to find what it takes to build this many, or you can proceed with this build and mark it as pending. When you have enough components to build 86, you can then mark this build as final.

Click Help for more information on pending builds.

ITEM	DESCRIPTION	TYPE	UM	PER ITEM QTY	SITE	QTY ON HAND	QTY NEEDED	SERIAL NUMBER
SAND (KG)	SAND (KG)	Inv Part	kg	244.8		3,197,790.66402	0
