I like that Quickbooks Online [Advanced] is not just for people with accounting experience, but can be used easily by anyone who knows how to use a computer. The user interface is very easy to navigate, and always updates in a useful way. Quickbooks Online gives me the ability to quickly invoice customers with presets for products that I use a lot.

Super easy to use and just as easy to learn and master. **There are so many helpful features and I find myself discovering new tools and tricks all the time...** I can't forget the endless amount of online support from other users through online posts and YouTube videos. The QB support is just as equally good!
